## Profile

---

Working proficiency in english language. I am a team player, but with capability to complete a lot of tasks on my own. Also, I am able to take the initiative to be productive and efficient and I consider myself responsible and goal oriented.

## Competence and skills

---

Solid knowledge of HTML5(XTML), CSS3(CSS2) and JQuery. Experience in working with preprocessor, especially with SASS. Hands on experience with more popular frameworks Bootstrap and Fondation, working in Magento CMS for front end needs, as well as creating custom WordPress sites. Extensive working experience with responsive design and keen interest in tracking latest trends in web design. Basic knowledge of version control systems (GIT, SVN). Testing of cross-browser i cross-device compatibility. Experience in working with various tools for preparing and optimizing graphics for web.
